「THE WORM TALKS # MACAU」THE FIRST SOLO EXHIBITION OF AH CHUNG'S ART IN MACAU

Ah Chung's real name is Yim Yee King. He calls himself "Ah Chung" (insect) because of his admiration for worms. He admires them not only because they have great strength in survival, but also, for their ability to be happy in harsh environments. This humble artist is one of the most popular artists in Hong Kong. His works are both traditional and modern.

With his simple brushwork filled with the wisdom of life, his painting speaks straight to people's hearts. After seeing it, people will be suddenly enlightened.
